

Technology And The Practice Of Law

Technology

Knowledge is our greatest asset and information can be your firm's best strategic weapon. Computers Unlimited advises law firms on the use of technology and how to integrate technology with the practice of law.

Consulting And Management

As a technology consultant, Computers Unlimited offers clients objective advice based on our more than 18 years experience in information technology and law office automation. Our recommendations are based on the needs and goals of the individual firm. We give the answers needed to use the best of today's—and tomorrows—hardware and software technology.

- Case & Practice Management
- Document Assembly, Management & Imaging
- Time, Billing & Accounting
- Litigation Support & Trial Presentation
- Practice Specific Applications
- Communications
- Contact Managers & Calendars
- Computer Security Solutions
- Knowledge Management
- Research Libraries
- Legal Education and Skill Building

In addition, Computers Unlimited provides the following technology planning and consulting by phone, fax, and email and/or on site:

- Intranet planning and implementation
- Recommendations on new software & hardware solutions
- Technology deployment and/or enhancement plans
- Computer evidence in civil and criminal actions
- Computer security
- Courtroom presentations using cutting edge technology

Computers Unlimited can help your law firm contain or reduce its' existing technology operational expenses through the use of several key management tools:

- Development of strategic law office system plans
- Development of system management guidelines & Reports
- Development of responsive and cost-effective support resources
- Design reviews of existing systems or applications
- Legal Software

Lawyers' demands are simple. They want software that meets their needs—now and in the future—at a reasonable cost, in the shortest time, with the least amount of effort and confusion, and with the highest degree of reliability. We offer comprehensive and specific recommendations on the software that can best fulfill our clients' needs today—and in the future. That means you can concentrate on building your firm's business while we do the homework.
